WILDLIFE GROUNDSWELL

Priorities

Managing land in ways that ensure bigger, better, more dynamic and joined-up approaches for nature's recovery.

Building resilience and enabling adaptation to changing climate.

Improving opportunities for people to connect with nature, sustainable farming and the outdoors.

Respecting, cherishing and celebrating the special and distinctive landscape of the Lizard.

Natural Lizard

The Linking the Lizard Partnership works collaboratively with organisations, community groups, farmers, land managers, residents and visitors across the Lizard Peninsula. We work together in a co-ordinated, sustainable and inclusive way that benefits people, place, nature and climate.
